Run HamClock on your AllStarLink node
There is a script written to do this and it is easy to use.
EtherHam

POTA operators need to be more respectful
Interactions can be downright stressful, especially during the later hours of the day when a lone operator can look “suspicious” to someone who doesn’t understand Amateur Radio.
VE3IPS

W6RGC/AI: AI amateur radio operator and voice assistant
Natural language APRS capabilities allowing operators to send and receive APRS messages using conversational voice commands.
W6RGC

What QRP has taught me about slowing down
One of the things I love most about QRP is how naturally it encourages me to slow down and be present in the moment.
